TPSODL ensures uninterrupted power at 650-bed Koraput Medical College Hospital

PBD BUREAU

BERHAMPUR, SEP 4

TATA Power Southern Odisha Distribution Limited (TPSODL) has commissioned a dedicated 33 kV power supply with a 500 kVA distribution transformer for the newly established 650-bedded teaching hospital at Shaheed Laxman Nayak Medical College (SLNMC), Koraput. The system will ensure uninterrupted electricity for the hospital, hostels, and newly built residential quarters on the campus.

To facilitate this, a 33 kV line has been laid from the Sunabeda Grid Substation to the Koraput Old Power Substation, from where a dedicated 33 kV link line has been extended to the hospital. The

new connection includes 700 circuit meters of line supported by 20 poles, designed to provide seamless power to critical healthcare infrastructure.

The state-of-the-art facility, recently inaugurated by Chief Minister Mohan Charan Majhi, is equipped with advanced diagnostic and treatment units, including CT scan and dialysis facilities, along with an in-house oxygen plant to support critical care. Uninterrupted power is essential

for such life-saving services, and TPSODL has reinforced the setup with AB switches, isolators, and other safety equipment to ensure reliable service.

By establishing a robust, independent supply network, TPSODL has enabled the hospital to function without disruptions and deliver advanced healthcare to thousands of people in southern Odisha.

Commenting on the initiative, Amit Kumar Garg, CEO of TPSODL, said, "Healthcare requires uninterrupted power to save lives. We are proud to support the newly built hospital with a reliable and dedicated electricity network. This project reflects our commitment to strengthening infrastructure and serving the communities of Southern Odisha."

कोरापुट मेडिकल कालेज हॉस्पिटल को अब मिलेगी 24 घंटे बिजली

जासं, भुवनेश्वर : लगातार दक्षिण ओडिशा के लोगों को बड़ी सौगात मिली है। शहीद लक्ष्मण नायक मेडिकल कॉलेज के पास बने 650 शैय्या वाले नव-निर्मित टीचिंग हॉस्पिटल को अब निर्बाध बिजली आपूर्ति मिलेगी। टीपीएसओडीएल ने इसके लिए 500 केवी क्षमता का ट्रांसफॉर्मर और समर्पित 33 केवी लाइन तैयार कर दी है। नए अस्पताल, हॉस्टल और आवासीय क्वार्टरों के लिए खास बिजली ढांचा स्थापित किया गया है, ताकि किसी तरह की कटौती न हो। सुनाबेड़ा ग्रिड सब-स्टेशन से पुराने कोरापुट पावर सब-स्टेशन तक बनी 33 केवी लाइन से जोड़े गए लिंक लाइन के जरिए यह सुविधा दी गई है। इस काम में 20 पोल और 700 सर्किट मीटर लाइन बिछाई गई हैं। अस्पताल परिसर में भी अलग से ढांचा विकसित किया गया है।

शहीद लक्ष्मण नायक मेडिकल कॉलेज में टीपीएस ओडीएल ने समर्पित 33 केवी बिजली आपूर्ति शुरू की

650 बिस्तरों वाले नए अस्पताल को अब मिलेगी निर्बाध बिजली
सीएम मोहन चरण माझी ने किया था उद्घाटन

नवभारत ब्यूरो। भुवनेश्वर। टाटा पावर साउदर्न ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) ने कोरापुट स्थित शहीद लक्ष्मण नायक मेडिकल कॉलेज के लिए 33 केवी माफलाई और 500 केवीए वितरण ट्रांसफार्मर का सफलतापूर्वक उद्घाटन किया है। यह नई व्यवस्था 650 बिस्तरों वाले शिक्षण अस्पताल, छात्रावास और नव-निर्मित आवासीय क्वार्टर्स को विश्वसनीय और निर्बाध बिजली आपूर्ति सुनिश्चित करेगी। नई आपूर्ति के लिए सुना बेड़ा ग्रिड सबस्टेशन से कोरापुट ओल्ड पावर सबस्टेशन तक 33 केवी लाइन बिछाई गई और वहां से अस्पताल भवन

तक एक समर्पित लिंक लाइन जोड़ी गई। इस कनेक्शन में 700 सर्किट मीटर लाइन और 20 खंभे लगाए गए हैं। अस्पताल में आधुनिक डाइग्नोस्टिक और उपचार सेवाएं उपलब्ध कराई गई हैं, जिनमें सीटी स्कैन, डायलिसिस यूनिट और ऑक्सीजन प्लांट शामिल हैं। ऐसी जीवनरक्षक

सुविधाओं के लिए निर्बाध बिजली आपूर्ति बेहद जरूरी है। टीपीएसओडीएल ने इसके लिए एबी स्वीच, आइसोलेटर और अन्य सुरक्षा उपकरणों से युक्त अलग व्यवस्था उपलब्ध कराई है। यह 650 बिस्तरों वाला अत्याधुनिक अस्पताल हाल ही में मुख्यमंत्री मोहन चरण माझी द्वारा उद्घाटित किया गया था और यह दक्षिण ओडिशा के हजारों लोगों को उन्नत स्वास्थ्य सुविधाएं उपलब्ध कराएगा। टीपीएसओडीएल के सीईओ अमित कुमार वर्मा ने कहा, स्वास्थ्य सेवाओं के लिए निर्बाध बिजली आपूर्ति बेहद आवश्यक है। हमें गर्व है कि हम इस नए अस्पताल को एक भरोसेमंद और समर्पित बिजली नेटवर्क प्रदान कर रहे हैं। यह प्रोजेक्ट हमारी उस प्रतिबद्धता को दर्शाता है जिसके तहत हम दक्षिण ओडिशा की समुदायों को मजबूत इंफ्रास्ट्रक्चर और सेवाएं उपलब्ध कराने के लिए कार्यरत हैं।

Synopsis: TPSODL has successfully commissioned a 33-kV supply with a 500-kVA distribution transformer for the newly built 650-bedded teaching hospital at Shaheed Laxman Nayak Medical College (SLNMC), Koraput. This dedicated power setup will ensure reliable and uninterrupted electricity for the hospital, hostels, and newly added residential quarters within the premises.

To make this possible, a 33 kV line was laid from the Sunabeda Grid Substation to the Koraput Old Power Substation, and from there a dedicated 33 kV link line was extended to the hospital building. The new connection includes 700 circuit meters of line supported by 20 poles. This dedicated supply ensures that critical healthcare facilities receive seamless power.

The 650-bedded hospital was recently inaugurated by Chief Minister Shri Mohan Charan Majhi and is expected to serve thousands of people in southern Odisha. By providing a separate, robust power system, TPSODL has enabled the hospital to operate without interruptions and deliver advanced healthcare services.

Speaking on the development, Mr. Amit Kumar Garg, CEO of TPSODL, said, "Healthcare requires uninterrupted power to save lives. We are proud to support the newly built hospital with a reliable and dedicated electricity network. This project reflects our commitment in strengthening infrastructure and serving the communities of Southern Odisha."

Synopsis: TPSODL has successfully commissioned a 33-kV supply with a 500-kVA distribution transformer for the newly built 650-bedded teaching hospital at Shaheed Laxman Nayak Medical College (SLNMC), Koraput. This dedicated power setup will ensure reliable and uninterrupted electricity for the hospital, hostels, and newly added residential quarters within the premises.

To make this possible, a 33 kV line was laid from the Sunabeda Grid Substation to the Koraput Old Power Substation, and from there a dedicated 33 kV link line was extended to the hospital building. The new connection includes 700 circuit meters of line supported by 20 poles. This dedicated supply ensures that critical healthcare facilities receive seamless power.

The 650-bedded hospital was recently inaugurated by Chief Minister Shri Mohan Charan Majhi and is expected to serve thousands of people in southern Odisha. By providing a separate, robust power system, TPSODL has enabled the hospital to operate without interruptions and deliver advanced healthcare services.

Speaking on the development, Mr. Amit Kumar Garg, CEO of TPSODL, said, "Healthcare requires uninterrupted power to save lives. We are proud to support the newly built hospital with a reliable and dedicated electricity network. This project reflects our commitment in strengthening infrastructure and serving the communities of Southern Odisha."

TPSODL promotes digital literacy among SHGs during Tata Volunteering Week

PBD BUREAU

BERHAMPUR, SEP 10

IN celebration of Tata Volunteering Week, TP Southern Odisha Distribution Limited (TPSODL) launched a series of Digital Literacy Awareness Campaigns at the Kamalapur Gram Panchayat office in Rangeilunda Block, Berhampur, and Girliguda Village in Koraput. The initiative focused on empowering women from Self-Help Groups (SHGs) and other local communities with crucial digital knowledge.

The session in Berhampur was led by Manju Garg, who emphasized the importance of digital literacy in today’s world. With the support of several enthusiastic volunteers, the team interacted with SHG women and local ward members, spreading awareness in an engaging and impactful way.

The discussions centered around the practical benefits of digital technology, including the use of online payment systems, safe internet practices, and accessing government and banking services online.

In Koraput, more than 100 SHG women actively participated in the campaign. They gained insights into secure online transactions and how to digitally access essential public services. The interactive format allowed participants to ask questions and share their personal experiences, fostering a deeper understanding of digital tools.

These campaigns highlight TPSODL’s ongoing commitment to digital inclusion, financial literacy, and community empowerment. By engaging in such volunteer-driven initiatives, TPSODL continues to drive sustainable development across Southern Odisha.

टाटा वॉलंटियरिंग वीक : टीपीएसओडीएल ने महिलाओं के लिए चलाया जागरूकता अभियान चलाया

भुवनेश्वर। टाटा वॉलंटियरिंग वीक के अवसर पर टीपी एसओडीएल डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) ने ग्रामीण और अर्द्ध-शहरी क्षेत्रों में महिला स्वयं सहायता समूहों और समुदायों को डिजिटल ज्ञान से सशक्त बनाने के उद्देश्य से डिजिटल साक्षरता जागरूकता अभियान आयोजित किए। ये कार्यक्रम रंगईलुंडा ब्लॉक के कमलापुर

ग्राम पंचायत कार्यालय (ब्रह्मपुर) और कोरापुट के गिरिलगुड़ा गांव में आयोजित हुए। ब्रह्मपुर में आयोजित सत्र में सुश्री मंजू गर्ग ने विशेष अतिथि के रूप में भाग लिया और डिजिटल साक्षरता के महत्व पर महत्वपूर्ण विचार साझा किए। कई स्वयंसेवकों के सहयोग से टीपीएसओडीएल की टीम ने एसएचजी महिलाओं और वार्ड सदस्यों के साथ

इंटरैक्टिव तरीके से डिजिटल जागरूकता फैलाई। सत्र में डिजिटल तकनीक के दैनिक जीवन में लाभ, ऑनलाइन भुगतान प्रणालियों का उपयोग, सुरक्षित डिजिटल अभ्यास, और सरकारी व बैंकिंग सेवाओं तक ऑनलाइन पहुंच जैसे विषयों पर विशेष ध्यान दिया गया। कोरापुट में आयोजित कार्यक्रम में 100 से अधिक एसएचजी महिलाओं ने उत्साहपूर्वक भाग लिया। प्रतिभागियों ने सुरक्षित ऑनलाइन लेन-देन पर चर्चा की और आवश्यक सेवाओं तक डिजिटल पहुंच के तरीके सीखे। इंटरैक्टिव शैली ने महिलाओं को सक्रिय पूछने और अपने अनुभव साझा करने के लिए प्रोत्साहित किया। इन पहलों के जरिए टीपीएसओडीएल ने डिजिटल समावेशन, वित्तीय साक्षरता और सतत सामुदायिक विकास के प्रति अपनी प्रतिबद्धता दोहराई। स्वयंसेवकों द्वारा संचालित ऐसे प्रयास दक्षिण ओडिशा के समुदायों को सशक्त बनाने की दिशा में एसएचजी की निरंतर पहल को दर्शाते हैं।

In Berhampur, the session was graced by Ms. Manju Garg, who shared valuable insights on the importance of digital literacy. Supported by several volunteers, the team engaged with SHG women and ward members, spreading awareness in an interactive and impactful manner.

The session highlighted the benefits of digital technology in daily life. It stressed the use of online payment systems, safe digital practices, and access to government and banking services.

In Koraput, more than 100 SHG women participated enthusiastically. They discussed secure online transactions and learned about digital access to essential services. The interactive approach encouraged participants to ask questions and share their own experiences.

These initiatives reaffirm TPSODL's commitment to digital inclusion, financial literacy, and sustainable community development. Through such volunteer-driven efforts, TPSODL continues to empower communities across Southern Odisha.

Synopsis: On the occasion of Tata Volunteering Week, TP Southern Odisha Distribution Limited (TPSODL) organized Digital Literacy Awareness Campaigns at Kamalapur Gram Panchayat office in Rangeilunda Block, Berhampur, and Giriliguda Village in Koraput. The campaigns aimed at empowering rural and semi-urban SHG women and other communities with essential digital knowledge.

In Berhampur, the session was graced by Ms. Manju Garg, who shared valuable insights on the importance of digital literacy. Supported by several volunteers, the team engaged with SHG women and ward members, spreading awareness in an interactive and impactful manner.

The session highlighted the benefits of digital technology in daily life. It stressed the use of online payment systems, safe digital practices, and access to government and banking services.

In Koraput, more than 100 SHG women participated enthusiastically. They discussed secure online transactions and learned about digital access to essential services. The interactive approach encouraged participants to ask questions and share their own experiences.

These initiatives reaffirm TPSODL’s commitment to digital inclusion, financial literacy, and sustainable community development. Through such volunteer-driven efforts, TPSODL continues to empower communities across Southern Odisha.

From Villages to Industries, TATA Power led Southern Odisha DISCOM Energises Rayagada

Berhampur, (Correspondent): TP Southern Odisha Distribution Limited (TPSODL), a joint venture of Tata Power and the Government of Odisha, has launched several key initiatives in Rayagada district to modernize and strengthen electricity infrastructure. These efforts are aimed at improving supply quality and driving inclusive growth across one of southern Odisha's most

d y n a m i c regions. Rayagada, located in the picturesque Eastern Ghats, is a district that combines cultural richness with industrial promise. Known for its vibrant tribal communities, natural resources, and industries such as alumina refineries and paper mills, Rayagada is emerging as a hub of both tradition and progress. With expanding urban centers, growing industries, and villages increasingly embracing

modern development, the district's demand for reliable electricity has been rising steadily. TPSODL has responded with a

focused programme to expand and modernise the network, ensuring that every segment of society — from

households and farmers to entrepreneurs and industries—benefits from world-class power supply. In recent months, several important projects have been completed across Rayagada. Transformer capacity has been strengthened at Gurnada, Bikrapur, Mrajhola, and Therabuli substations, ensuring greater resilience and consistent supply. At Munigada, both transformers were

upgraded from 3.15 MVA to 5 MVA, creating significant additional capacity to meet the district's growing residential and industrial needs. New 33 KV lines were constructed from the Gumpur Grid Substation at Okhlagada to Bikrapur, Durbasara, Jaltar, and Gunupur, thereby enhancing coverage across multiple habitation and industrial clusters.

From Villages to Industries, TATA Power led Southern Odisha DISCOM Energises Rayagada

Berhampur (DMS): TP Southern Odisha Distribution Limited (TPSODL), a joint venture of Tata Power and the Government of Odisha, has launched several key initiatives in Rayagada district to modernize and strengthen electricity infrastructure. These efforts are aimed at improving supply quality and driving inclusive growth across one of southern Odisha's most dynamic regions.

Rayagada, located in the picturesque Eastern Ghats, is a district that combines cultural richness with industrial promise. Known for its vibrant tribal communities, natural resources, and industries such as alumina refineries and paper mills, Rayagada is emerging as a hub of both tradition and progress. With

expanding urban centers, growing industries, and villages increasingly embracing modern development, the district's demand for reliable electricity has been rising steadily. TPSODL has responded with a focused programme to expand and modernize the network, ensuring that every segment of society—from households and farmers to entrepreneurs and industries—benefits from world-class power supply.

In recent months, several important projects have been completed across Rayagada. Transformer capacity has been strengthened at Gumuda, Birkampur, Minajhola, and Therubali substations, ensuring greater resilience and consistent supply. At Muniguda, both

transformers were upgraded from 3.15 MVA to 5 MVA, creating significant additional capacity to meet the district's growing residential and industrial needs.

New 33-KV lines were constructed from the Gumpur Grid Substation at Okhilaiguda to Birkampur, Dumhasara, Jaltaar, and Gumapur, thereby enhancing coverage across multiple habitations and industrial clusters. Another important line was laid from Hatamaniguda to Shiv Mandir, Pitarahal, strengthening the supply backbone. Key 33-KV feeders such as Dargachiroda, Sanger, and Gunapur were modernized, adding further stability to the system.

At the 11-KV level, new lines were laid from Tikiri town to Naspada and from Town-3 to Tumodiguda, ensuring reliable connectivity to expanding urban areas. Several existing feeders—Town, Court, Sulahi, Ramniguda, Dhepaguda, Garari, Sirigada, Ambakola, Town-4, and Muniguda—were upgraded to deliver enhanced quality of supply to households, institutions, and commercial establishments. These developments have created a robust distribution network that is prepared to meet future demand while maintaining efficiency and reliability.

रायगड़ा जिले में बिजली की नई रोशनी, ऊर्जा सम्पन्नता की ओर कदम

जैसे भूनेबर : दक्षिण ओडिशा का रायगड़ा जिले के प्रत्येक घर में नए सिरे बिजली पहुंच गई है। बल्कि यह जिला अब ऊर्जा सम्पन्न जिला बन गया है। टाटा पावर के टीपी साउदर्न ओडिशा डिस्ट्रीब्यूशन लिमिटेड (टीपीएसओडीएल) और ओडिशा सरकार का संयुक्त उपक्रम से यह संभव हुआ है। जानकारी के मुताबिक रायगड़ा, जिसे जनजातीय परंपरा और उद्योगों का संगम माना जाता है, यहां अब एल्यूमिना रिफ़ाइनरी, पैपर मिल जैसे उद्योगों से लेकर गांव-गांव तक बिजली मजबूत नेटवर्क स्थापित हो गया है। गुमुगुड़ा, बिळमपुर, मिन्डजोला और थेरुजली सबस्टेशनों की क्षमता बढ़ाई गई है।

गुमीगुड़ा के ट्रांसफार्मरों को 3.15 एमवीए से 5 एमवीए में अपग्रेड किया गया। गुन्दूर बिंड से

- उद्योगों से लेकर गांव-गांव तक बिजली की मजबूत नेटवर्क हो गया स्थापित
- अगुमुगुड़ा, बिळमपुर, मिन्डजोला और थेरुजली सबस्टेशनों की क्षमता बढ़ाई

बाई नई 33 केबल लाने बिछाई गई और प्रमुख फेडरों को आधुनिक बनाया गया। टिकिरी से गुआपाड़ा और टावन-3 से गुमुगुड़ा तक नई 11 केबल लाने वाले गई। साथ ही टावन, कोट, रमणगुड़ा और अंबडोल जैसे फेडरों को अपग्रेड कर घरों, दुकानों, स्कूलों और अस्पतालों तक स्थिर आपूर्ति सुनिश्चित की गई। टाटा पावर के इस पहल से अब उद्योगों को स्थिर बिजली मिलने से उत्पादन बढ़ा है। किसानों को सिंचाई में मदद मिल

की है। स्कूलों में डिजिटल शिक्षा और अस्पतालों में आधुनिक इलाज बिजली को बढ़ावा सुचारु हो रहे हैं। टीपीएसओडीएल के सीईओ अमित कुमार शर्मा ने कहा कि रायगड़ा ऐसा जिला है जहां परंपरा और उद्योग दोनों साथ-साथ चलते हैं। मजबूत बिजली नेटवर्क से अब जिले के हर कोने में गुणवत्तापूर्ण आपूर्ति सुनिश्चित हुई है। यह पहल न केवल रायगड़ा बल्कि पूरे देश के लिए ऊर्जा सुरक्षा और "सबको बिजली" के लक्ष्य को दिशा में अहम योगदान है। अब रायगड़ा गांव-गांव रोशन होकर प्रगति के नए दौर के लिए तैयार है। इस परियोजना के सफल कार्यान्वयन से रायगड़ा को आर्थिक और सामाजिक स्थिति में महत्वपूर्ण बदलाव की उम्मीद है। स्थिर बिजली आपूर्ति से अब लघु उद्योगों को भी प्रोत्साहन मिलेगा।

दक्षिण ओडिशा में बिजली आपूर्ति सुधार की बड़ी पहल

रायगढ़ा में बिजली ढांचे को सशक्त करने की दिशा में टीपीएसओडीएल की नई पहल

नवभारत ख्यूरो। भुवनेश्वर।

टाटा पावर और ओडिशा सरकार के संयुक्त उपक्रम टीपीएसओडीएल (टीपीएसओडीएल) ने रायगढ़ा जिले में बिजली के ढांचे को आधुनिक और मजबूत बनाने के लिए कई महत्वपूर्ण परियोजनाएं शुरू की हैं। इन पहलों का उद्देश्य आपूर्ति की गुणवत्ता में सुधार करना और दक्षिण ओडिशा के इस उभरते क्षेत्र में समावेशी विकास को गति देना है। पूर्वी घाट की गोद में बसे रायगढ़ा जिले की पहचान अपनी सांस्कृतिक विविधता, प्राकृतिक संसाधनों और अत्युमिना रिफाइनरी व पेपर मिल जैसी उद्योग इकाइयों के कारण है। लगातार बढ़ती आबादी, नए उद्योग और गांवों में हो रहे विकास से विश्वसनीय बिजली आपूर्ति की मांग भी तेजी से बढ़ रही है। टीपीएसओडीएल ने इस बढ़ती जरूरतों को ध्यान में रखते हुए ट्रांसफॉर्मर क्षमता बढ़ाने, नई लाइनों के निर्माण और पुराने फीडरों के आधुनिकीकरण का काम किया है। हाल ही में गुमुड़ा, विक्रमपुर, मिनाडोल्ला और धेरुबली सब-स्टेशनों पर ट्रांसफॉर्मर क्षमता को मजबूत किया गया। मुनीगुड़ा में दोनों

ट्रांसफॉर्मर को 3.15 एमवीए से 5 एमवीए में अपग्रेड किया गया। गुनुपुर ग्रिड सब-स्टेशन से ओखिलगुड़ा, विक्रमपुर, दुम्बासरा, जलतार और गुनुपुर तक नई 33 केवी लाइनें बिछाई गईं। हाटामुनीगुड़ा से तिव मंदिर, पिटामहल तक भी नई लाइन डाली गईं। दंगारसोरोंडा, सुगेर और गुनुपुर जैसे प्रमुख 33 केवी फीडरों का आधुनिकीकरण किया गया। 11 केवी स्तर पर भी टिकिरी से नुआपड़ा और टाउन-3 से तुमुडिगुड़ा तक नई लाइनें बिछाई गईं। टाउन, कोट, सुनुडी, रमणगुड़ा, धेपगुड़ा, गुडारी, मिरीगुड़ा, अंबाडोला, टाउन-4 और मुनीगुड़ा जैसे फीडरों को अपग्रेड कर धरेलू, वाणिज्यिक और संस्थागत उपभोक्ताओं को बेहतर आपूर्ति सुनिश्चित की गई।

इन परियोजनाओं से उद्योगों को लगातार बिजली आपूर्ति मिल रही है, किसानों को सिंचाई के लिए भरसमंद बिजली मिल रही है और शैक्षणिक व स्वास्थ्य संस्थानों में सेवाएं बेहतर हो रही हैं। गांव और कस्बे डिजिटल समावेशन व छोटे व्यवसायों में वृद्धि देख रहे हैं। टीपीएसओडीएल के सीईओ अमित कुमार गर्ग ने कहा, रायगढ़ा संतुलित विकास की भावना को दर्शाता है। उद्योग और परंपरा यहां साथ-साथ चलते हैं और इन्हें जोड़ने की नींव है विश्वसनीय बिजली। नेटवर्क को मजबूत कर और नई लाइनों का निर्माण कर हम यह सुनिश्चित कर रहे हैं कि रायगढ़ा के हर कोने तक गुणवत्तापूर्ण बिजली पहुंचे। इन पहलों के जरिए रायगढ़ा एक नई विकास यात्रा के लिए तैयार है, जहां मजबूत बिजली ढांचा न सिर्फ आज बल्कि आने वाली पीढ़ियों को प्रगति को भी रोशन करेगा।

Synopsis: TPSODL a joint venture of Tata Power and the Government of Odisha, has launched several key initiatives in Rayagada district to modernize and strengthen electricity infrastructure. These efforts are aimed at improving supply quality and driving inclusive growth across one of southern Odisha’s most dynamic regions.

Rayagada, located in the picturesque Eastern Ghats, is a district that combines cultural richness with industrial promise. Known for its vibrant tribal communities, natural resources, and industries such as alumina refineries and paper mills, Rayagada is emerging as a hub of both tradition and progress. With expanding urban centers, growing industries, and villages increasingly embracing modern development, the district’s demand for reliable electricity has been rising steadily. TPSODL has responded with a focused programme to expand and modernize the network, ensuring that every segment of society—from households and farmers to entrepreneurs and industries—benefits from world-class power supply.

In recent months, several important projects have been completed across Rayagada. Transformer capacity has been strengthened at Gumuda, Bikrampur, Minajhola, and Therubali substations, ensuring greater resilience and consistent supply. At Muniguda, both transformers were upgraded from 3.15 MVA to 5 MVA, creating significant additional capacity to meet the district’s growing residential and industrial needs.

New 33 KV lines were constructed from the Gunupur Grid Substation at Okhilaguda to Bikrampur, Dumbasara, Jaltaar, and Gunupur, thereby enhancing coverage across multiple habitations and industrial clusters. Another important line was laid from Hatamuniguda to Shiv Mandir, Pitamahal, strengthening the supply backbone. Key 33 KV feeders such as Dangasoroda, Sunger, and Gunupur were modernized, adding further stability to the system.

Synopsis: TPSODL a joint venture of Tata Power and the Government of Odisha, has launched several key initiatives in Rayagada district to modernize and strengthen electricity infrastructure. These efforts are aimed at improving supply quality and driving inclusive growth across one of southern Odisha's most dynamic regions.

Rayagada, located in the picturesque Eastern Ghats, is a district that combines cultural richness with industrial promise. Known for its vibrant tribal communities, natural resources, and industries such as alumina refineries and paper mills, Rayagada is emerging as a hub of both tradition and progress. With expanding urban centers, growing industries, and villages increasingly embracing modern development, the district's demand for reliable electricity has been rising steadily. TPSODL has responded with a focused programme to expand and modernize the network, ensuring that every segment of society—from households and farmers to entrepreneurs and industries—benefits from world-class power supply.

In recent months, several important projects have been completed across Rayagada. Transformer capacity has been strengthened at Gumuda, Bikrampur, Minajhola, and Therubali substations, ensuring greater resilience and consistent supply. At Muniguda, both transformers were upgraded from 3.15 MVA to 5 MVA, creating significant additional capacity to meet the district's growing residential and industrial needs.

New 33 KV lines were constructed from the Gunupur Grid Substation at Okhilaguda to Bikrampur, Dumbasara, Jaltaar, and Gunupur, thereby enhancing coverage across multiple habitations and industrial clusters. Another important line was laid from Hatamuniguda to Shiv Mandir, Pitamahal, strengthening the supply backbone. Key 33 KV feeders such as Dangasoroda, Sunger, and Gunupur were modernized, adding further stability to the system.

Synopsis: TPSODL a joint venture of Tata Power and the Government of Odisha, has launched several key initiatives in Rayagada district to modernize and strengthen electricity infrastructure. These efforts are aimed at improving supply quality and driving inclusive growth across one of southern Odisha's most dynamic regions.

Rayagada, located in the picturesque Eastern Ghats, is a district that combines cultural richness with industrial promise. Known for its vibrant tribal communities, natural resources, and industries such as alumina refineries and paper mills, Rayagada is emerging as a hub of both tradition and progress. With expanding urban centers, growing industries, and villages increasingly embracing modern development, the district's demand for reliable electricity has been rising steadily. TPSODL has responded with a focused programme to expand and modernize the network, ensuring that every segment of society—from households and farmers to entrepreneurs and industries—benefits from world-class power supply.

In recent months, several important projects have been completed across Rayagada. Transformer capacity has been strengthened at Gumuda, Bikrampur, Minajhola, and Therubali substations, ensuring greater resilience and consistent supply. At Muniguda, both transformers were upgraded from 3.15 MVA to 5 MVA, creating significant additional capacity to meet the district's growing residential and industrial needs.

New 33 KV lines were constructed from the Gunupur Grid Substation at Okhilaguda to Bikrampur, Dumbasara, Jaltaar, and Gunupur, thereby enhancing coverage across multiple habitations and industrial clusters. Another important line was laid from Hatamuniguda to Shiv Mandir, Pitamahal, strengthening the supply backbone. Key 33 KV feeders such as Dangasoroda, Sunger, and Gunupur were modernized, adding further stability to the system.

TPSODL issues safety advisory for Durga Puja celebrations

BERHAMPUR, SEP 18

As Durga Puja and the festive season approach, TP Southern Odisha Distribution Limited (TPSODL) has issued a safety advisory urging citizens to prioritize electrical safety during celebrations. The company assures a reliable power supply but urges consumers to follow safety measures for a safe and accident-free experience.

TPSODL is offering temporary power connections for pandals, puja committees, and cultural programs. Organizers are advised to apply through TPSODL's offices or self-service numbers. The company warns against unauthorized connections, which can cause accidents, and discourages the use of licensed electricians for self-wiring and installations.

The advisory highlights the importance of checking connections, replacing damaged wires, ensuring proper earthing, and avoiding overloaded sockets. Decorative items should stay clear of overhead lines, and fireworks activities should maintain a safe distance from power infrastructure. The public is also cautioned to avoid bundling crackers near electrical installations.

For emergencies, TPSODL's 24x7 Customer Care Toll-Free Numbers (1912 and 1800-2026) are available, and dedicated teams are ready to respond.

CEO Anil Kumar Garg wished the people of Southern Odisha a safe and joyful, festive season, emphasizing the importance of safety for all. "Together, let us ensure that this festive season remains bright, safe and joyful for every household," he added. -PDD

Powering Festivities Safely: TPSODL issues Advisory for Consumers

Berhampur, (Correspondent): With Durga Puja and the festive season approaching, TP Southern Odisha Distribution Limited (TPSODL) has appealed to citizens across Southern Odisha to celebrate responsibly while prioritizing electrical safety. The company has assured reliable and quality power supply during the festivities, even as it urges consumers to follow essential safety measures to ensure a bright and accident-free celebration. TPSODL is extending temporary power connections for pandals, puja committees and cultural programmes. Organisers can apply through the company's Section, Sub-Division and Division offices, or make use of TPSODL's self-service numbers for quick support. Emphasising the need for safe practices, the company has strongly cautioned against the use of unauthorized or illegal connections, which often result in accidents and

power disruptions. It has also appealed to committees to engage only licensed electricians for wiring and decoration work, ensuring that installations are carried out in a safe and professional manner. The advisory reminds consumers and organisers to remain vigilant during the festive days. All connections should be thoroughly checked, damaged wires must be replaced without delay, and proper earthing should be ensured to avoid risks. Overloading of sockets and the use of substandard equipment can create severe hazards and must be avoided. Decorative items should not be allowed to come into contact with overhead lines. During immersion of idols, the public has been requested to maintain safe distance from poles, transformers and live wires. Similarly, crackers should not be burst near electrical installations to prevent accidental fires or electrocution.

TPSODL's power push for Ganjam

Berhampur: A major milestone in Ganjam's power infrastructure was achieved with the commissioning of a new 33KV line from the Hinjili Grid Sub-Station to the Sheragada Primary Sub-Station. The project was carried out by TPSODL, under the ODSSP V scheme (MukhyaMantri Shakti BikasJojana) at a cost of about ₹6 crore. It is set to benefit more than 40,000 consumers across 22 Gram Panchayats in Sheragada block. The new line, 18 km in length and built with 148 sq mm conductor, will strengthen supply to four Primary Sub-Stations, Adapada, Sheragada, Karadakana, and Palashpur, in the area. This will ensure stable and quality electricity for households, farmers, and small businesses. Amit Kumar Garg, CEO of TPSODL, said, “This project reflects our commitment in strengthening rural power infrastructure. With the new line, consumers of Sheragada will enjoy more reliable, stable, and quality electricity. Our focus remains on building a robust network that supports households, farmers, and local businesses.”

40,000 consumers in Ganjam set to benefit from TPSODL's strengthened power network

PBD BUREAU

BERHAMPUR, SEP 20

A significant step forward for Ganjam's power infrastructure was marked with the commissioning of a new 33KV line connecting the Hinjili Grid Sub-Station to the Sheragada Primary Sub-Station. The project, carried out by TPSODL under the ODSSP V scheme (Mukhya Mantri Shakti Bikas Yojana), has been completed at an investment of approximately Rs 6 crore. The upgrade will directly benefit over 40,000 consumers across 22 gram panchayats in the Sheragada block.

Spanning 18 km and constructed with a 148 sq. mm conductor, the new line will enhance the power supply to four key Primary Sub-Stations in the region: Adapada, Sheragada, Karadakana, and Palashpur. This improvement is set to ensure a more reliable and consistent power supply for households, farmers, and small businesses in the area.

Previously, Sheragada relied on a

single feeder, making the region vulnerable to power disruptions during maintenance or technical faults. The introduction of this second power source from the Hinjili Grid

will provide an alternative route for power, significantly reducing interruptions and increasing overall system reliability.

As a result, consumers in the area will experience more stable voltage, while farmers will benefit from a more dependable power supply for irrigation. Small businesses and shops will also see fewer disruptions, allowing them to operate more efficiently.

"This project underscores our commitment to strengthening rural power infrastructure. The new line will offer Sheragada consumers a more stable, reliable, and high-quality electricity supply. Our ongoing focus is to build a robust network that supports households, farmers, and local businesses," said Amit Kumar Garg, CEO of TPSODL.

ଯଦ୍ୟା ଉପଭୋକ୍ତାଙ୍କୁ ବିଦ୍ୟୁତ୍ ଯୋଗାଇ ଦିଆଯାଏ ତଥାପି ପାଖରେ ଏକ ବିଦ୍ୟୁତ୍ ଗାର୍ଡ୍ ରହିଛି । ଏହି ବିଦ୍ୟୁତ୍ ଡିଭିଜନ୍‌ରୁ ଆସୁଥିବା ଉପଭୋକ୍ତାଙ୍କୁ ଅଧିକ ବିଭାଗରେ ବିଦ୍ୟୁତ୍ ଯୋଗାଇ ଦେବା ବ୍ୟତୀତ ପ୍ରାୟ ୩୦ କି.ମି. ଦୂରରେ ଉପଭୋକ୍ତାଙ୍କୁ ବିଦ୍ୟୁତ୍ ସେବା ପ୍ରଦାନ କରିବା ଉଦ୍ଦେଶ୍ୟରେ ପଞ୍ଜା ବ୍ୟବସାୟ ଓ ବ୍ୟବସାୟ ଉପଭୋକ୍ତାଙ୍କୁ ବିଦ୍ୟୁତ୍ ଯୋଗାଇ ଦେବା ଉଦ୍ଦେଶ୍ୟରେ ଏକ ନୂଆ ବିଦ୍ୟୁତ୍ ଲାଇନ

ବିଭାଗରେ କାର୍ଯ୍ୟକ୍ଷମ ହେବ । ନୂଆ ଲାଇନ କାର୍ଯ୍ୟକ୍ଷମ ହେବା ପରେ ଉପଭୋକ୍ତାଙ୍କୁ ଅଧିକ ଉପଭୋଗୀ ଓ ପୁଞ୍ଜାମନ୍ତ୍ରୀ ବିଦ୍ୟୁତ୍ ସେବା ଯୋଗାଇ ଦେବାରେ ସହାୟକ ହେବ ବୋଲି ବିପିଏସ୍‌ସିଏଲ୍ ପୁଞ୍ଜା କାର୍ଯ୍ୟକ୍ଷମତା ଅଧିକାରୀ କହିଛନ୍ତି । ଏପରିକି ଏହି ପ୍ରକଳ୍ପ ଗ୍ରାମୀଣ ବିଦ୍ୟୁତ୍ ଡିଭିଜନ୍‌କୁ ଅଧିକ ବଳ୍ତ କରିବା ଶେଷରେ କାର୍ଯ୍ୟକ୍ଷମ ପ୍ରତିଷ୍ଠାକୁ ପ୍ରତିଷ୍ଠା କରିବ । ବିଭାଗ ଲାଇନ ଉପରେ ଶେରଗଡ଼ ପ୍ରାନ୍ତରେ ଅଧିକ ଉପଭୋଗୀ, ଗ୍ରାମ ଓ ପୁଞ୍ଜାମନ୍ତ୍ରୀ ବିଦ୍ୟୁତ୍ ସେବାକୁ ପ୍ରତିଷ୍ଠା ପାଇବ । ବିଭାଗ ଓ ବ୍ୟବସାୟ ଉପଭୋକ୍ତାଙ୍କୁ ବିଦ୍ୟୁତ୍ ସେବା କରିବା ସହ ପୁଞ୍ଜା ଉପଭୋକ୍ତା ସାମୁଦାୟିକ ଚିନ୍ତାରେ ଏକ ପୁଞ୍ଜାମନ୍ତ୍ରୀ ଉପଭୋକ୍ତା ବିଭାଗ ଉପରେ କାର୍ଯ୍ୟକ୍ଷମ ହେବ ବୋଲି ବିଦ୍ୟୁତ୍ ପୁଞ୍ଜା କାର୍ଯ୍ୟକ୍ଷମତା ଅଧିକାରୀ କହିଛନ୍ତି ।

Synopsis: A major milestone in Ganjam’s power infrastructure was achieved with the commissioning of a new 33KV line from the Hinjili Grid Sub-Station to the Sheragada Primary Sub-Station. The project was carried out by TPSODL, under the ODSSP V scheme (Mukhya Mantri Shakti Bikas Jojana) at a cost of about ₹6 crore. It is set to benefit more than 40,000 consumers across 22 Gram Panchayats in Sheragada block.

The new line, 18 km in length and built with 148 sq. mm conductor, will strengthen supply to four Primary Sub-Stations, Adapada, Sheragada, Karadakana, and Palashpur, in the area. This will ensure stable and quality electricity for households, farmers, and small businesses.

Mr. Amit Kumar Garg, CEO of TPSODL, said, “This project reflects our commitment in strengthening rural power infrastructure. With the new line, consumers of Sheragada will enjoy more reliable, stable, and quality electricity. Our focus remains on building a robust network that supports households, farmers, and local businesses.”

TPSODL Wins BeVokal CSR'25 Award for Empowering Tribal Women Farmers

Berhampur (DMS): TP Southern Odisha Distribution Limited (TPSODL) has received the prestigious BeVokal CSR'25 Award in the 'Shakti' category for its project "Promotion of Organic Finger Millets."

The recognition highlights TPSODL's commitment in improving rural livelihoods and supporting women-led farming initiatives in Southern Odisha. The project was carried out in Doraguda Gram Panchayat of Bolpariguda block in Kocaput District, implemented in partnership with NGO - PRAGATI, Kocaput, it directly supported 510 small and marginal women farmers across 18 villages, most of them from tribal communities. The aim was

to introduce better farming techniques, promote organic millet cultivation, and connect farmers to markets. The results have been remarkable. Farmers adopted improved cultivation methods like System of Millet Intensification and line transplanting, which doubled

their yields compared to traditional practices. From 250 acres of land, they harvested over 2,200 quintals of millet. Many farmers sold their produce at government mandis under MSP, earning higher incomes and greater financial security. To ensure sustainability, 212 farmers

became shareholders in the Jaivik Sri Farmers Producer Company Ltd. A millet processing unit has also been set up with modern machinery for cleaning, dehusking, and grinding. Along with this, several farmers accessed government incentives and support schemes, making the project more impactful.

Mr. Amit Kumar Garg, CEO of TPSODL, said, "This award is a proud moment for us. Our millet project shows how empowering women farmers can create lasting changes. It not only preserves traditional crops but also secures livelihoods and strengthens communities. At TPSODL, we remain committed to build a sustainable and inclusive future for Southern Odisha".

Synopsis: TP Southern Odisha Distribution Limited (TPSODL) has received the prestigious BeVokal CSR'25 Award in the 'Shakti' category for its project "Promotion of Organic Finger Millets." The recognition highlights TPSODL's commitment in improving rural livelihoods and supporting women-led farming initiatives in Southern Odisha.

The project was carried out in Doraguda Gram Panchayat of Boipariguda block in Koraput District. Implemented in partnership with NGO - PRAGATI, Koraput, it directly supported 510 small and marginal women farmers across 18 villages, most of them from tribal communities. The aim was to introduce better farming techniques, promote organic millet cultivation, and connect farmers to markets.

The results have been remarkable. Farmers adopted improved cultivation methods like System of Millet Intensification and line transplanting, which doubled their yields compared to traditional practices. From 250 acres of land, they harvested over 2,200 quintals of millet. Many farmers sold their produce at government mandis under MSP, earning higher incomes and greater financial security.

To ensure sustainability, 212 farmers became shareholders in the Jaivik Sri Farmers Producer Company Ltd. A millet processing unit has also been set up with modern machinery for cleaning, dehusking, and grinding. Along with this, several farmers accessed government incentives and support schemes, making the project more impactful.

Movie ‘Tanvi The Great’ screened in Brahmapur

Hosted by
**TPSODL, Anupam
 Kher Studio**

KRUSHNA CHANDRA PANDA
 ■ Brahmapur

The TP Southern Odisha Distribution Limited (TPSODL), in collaboration with Anupam Kher Studio, hosted a special screening of the film “Tanvi The Great” at Gautam Cinema here on Wednesday.

It brought together neurodiversity children, caregivers, educators, many school-going pupils, NGO partners, government officials, and community leaders. More than 600 people attended the special screening.

CEO Amit Kumar Garg and senior officials of TPSODL, Tata Steel Foundation, Tata Steel SEZ and Sarva Shiksha Abhiyan attended the screening, reaffirming the company’s strong commitment to build an

inclusive society.

The film, produced by Anupam Kher Productions with NFDC, tells the inspiring story of a young autistic girl who dreams of joining the Indian Army. It beautifully portrays both the struggles and the unique strengths of individuals with Autism Spectrum Disorder (ASD), said a viewer.

The screening was part of Tata Power’s flagship programme, “Pay Attention” – a Tata Power initiative that spreads awareness about autism, encourages early diagnosis, supports caregivers, and promotes inclusive education and workplaces.

CEO, TPSODL, Garg said, “Inclusion is not charity, it is empowerment. Every individual, regardless of ability, carries unique strengths that can inspire society. Cinema like ‘Tanvi The Great’ helps us spread this message of compassion and responsibility.”

TPSODL hosts special screening of “Tanvi The Great” to champion neurodiversity

PBD BUREAU

BERHAMPUR, SEP 24

TP Southern Odisha Distribution Limited (TPSODL), in collaboration

with Anupam Kher Studio, hosted a special screening of “Tanvi The Great” at Gautam Cinema, Berhampur. The event aimed to promote neurodiversity, inclusion, and acceptance, with over 600 attendees, including neurodiverse children, caregivers, educators, and community leaders.

CEO Amit Kumar Garg and senior officials from TPSODL, government bodies, and NGO partners attended, underscoring the company’s commitment to fostering an inclusive society.

Produced by Anupam Kher Productions, “Tanvi The Great” follows an autistic girl who dreams of joining the Indian Army, highlighting both her struggles and strengths. The

screening was part of Tata Power’s “Pay Attention” program, which promotes autism awareness and inclusive education.

“Inclusion is not charity, it is empowerment. Every individual, regardless of ability, carries unique strengths that can inspire society. Cinema like ‘Tanvi The Great’ helps us spread this message of compassion and responsibility. We are committed to build communities where differences are celebrated, not judged,” said TPSODL CEO Garg.

टीपीएस ओडीएल ने 'तन्वी द ग्रेट' की विशेष स्क्रीनिंग की

ऑटिपर जागरूकता और समावेशी समाज के संदेश को मिला बल

न्यूरोडिज़वर्सिटी व समावेशन को दिया बढ़ावा 600 से अधिक प्रतिभागियों ने 'पे ऑटिशन' कार्यक्रम के तहत फिल्म देखी

नवभारत ब्यूरो । भुवनेश्वर।

टीपीएसओडीएल लिमिटेड (टीपीएसओडीएल) ने अनुपम खेर स्टूडियो के सहयोग से गौतम सिनेमा, ब्रह्मपुर में 'तन्वी द ग्रेट' फिल्म की विशेष स्क्रीनिंग का आयोजन किया। इस कार्यक्रम का उद्देश्य न्यूरोडिज़वर्सिटी, समावेशन और स्वीकृति को बढ़ावा देना था। इस अवसर पर न्यूरोडिज़वर्सिटी बच्चों, उनके देखभालकर्ताओं, शिक्षकों, कई स्कूल के विद्यार्थियों, एन-सीओ साझेदारों, सरकारी अधिकारियों और सामुदायिक नेताओं ने भाग लिया। 600 से अधिक लोगों ने इस विशेष प्रदर्शन का आनंद लिया। टीपीएसओडीएल के मुख्य कार्यकारी अधिकारी अमित कुमार गर्ग, वीरेंद्र अधिकारी, टाटा स्टील फाउंडेशन, टाटा स्टील एआईएड, सर्व शिक्षा अभियान सहित विभिन्न सरकारी विभागों के प्रतिनिधि भी मौजूद रहे। इस अवसर पर

कंपनी ने समावेशी समाज बनाने की अपनी प्रतिबद्धता दोहराई। अनुपम खेर प्रोडक्शंस और एनएफटीसी द्वारा निर्मित यह फिल्म एक युवा ऑटिस्टिक लड़की की प्रेरणादायक कहानी प्रस्तुत करती है, जो भारतीय सेना में शामिल होने का सपना देखती है। यह फिल्म ऑटिस्टिक्स के डिमंड्स से जुड़े लक्षितों की चुनौतियों और उनकी अनूठी क्षमताओं को संबोधित करने से दर्शाती है। यह स्क्रीनिंग टाटा पावर की प्रमुख पहल 'पे ऑटिशन' के तहत आयोजित की गई, जिसका उद्देश्य ऑटिज्म के प्रति जागरूकता फैलाना, समय पर निदान को प्रोत्साहित करना, देखभालकर्ताओं को सहयोग देना और समावेशी शिक्षा व कार्यस्थलों को बढ़ावा देना है।

अमित कुमार गर्ग ने कहा, 'समावेशन टान नहीं, स्थापितकरण है। हर व्यक्ति, चाहे उसकी क्षमताएं कैसी भी हों, समाज को प्रेरित करने वाली विशेषताओं से भरा है। 'तन्वी द ग्रेट' जैसी फिल्में जागरूकता और जिम्मेदारी का संदेश देने में मदद करती हैं। हम ऐसे समुदाय बनाने के लिए प्रतिबद्ध हैं, जहां भिन्नताओं को मनाया जाए, न कि अंका जाए। टीपीएसओडीएल विजली वितरण से आगे बढ़कर करुणामय और समावेशी समुदाय बनाने के लिए कार्य कर रहा है। 'डिफरेंट, बट नो लैस' के विश्वास से प्रेरित यह कंपनी हर व्यक्ति की विविधता को अपनाने और उसकी ताकतों को सम्मान देने का संदेश देती है।

Synopsis: Berhampur: TP Southern Odisha Distribution Limited (TPSODL), in collaboration with Anupam Kher Studio, hosted a special screening of the film "Tanvi The Great" at Gautam Cinema, Berhampur. The event celebrated neurodiversity, inclusion, and acceptance. It brought together neurodiverse children, caregivers, educators, Many school-going pupils, NGO partners, government officials, and community leaders. More than 600 people attended the special screening. CEO Mr. Amit Kumar Garg & the senior officials of TPSODL, Government officials, Tata Steel Foundation, Tata Steel SEZ, Sarva Shiksha Abhiyan and other Government Officials attended the screening, reaffirming the company's strong commitment to build an inclusive society. The film, produced by Anupam Kher Productions with NFDC, tells the inspiring story of a young autistic girl who dreams of joining the Indian Army. It beautifully portrays both the struggles and the unique strengths of individuals with Autism Spectrum Disorder (ASD). This screening was part of Tata Power's flagship program "Pay Attention" – a Tata Power initiative that spreads awareness about autism, encourages early diagnosis, supports caregivers, and promotes inclusive education and workplaces. Mr. Amit Kumar Garg, CEO, TPSODL, Said- "Inclusion is not charity, it is empowerment. Every individual, regardless of ability, carries unique strengths that can inspire society. Cinema like 'Tanvi The Great' helps us spread this message of compassion and responsibility. We are committed to build communities where differences are celebrated, not judged." TPSODL's efforts go beyond power distribution, focusing on building inclusive and compassionate communities. Guided by the belief "Different... but no less," the company inspires people to embrace uniqueness and celebrate every individual's strengths.

Synopsis: Berhampur: TP Southern Odisha Distribution Limited (TPSODL), in collaboration with Anupam Kher Studio, hosted a special screening of the film "Tanvi The Great" at Gautam Cinema, Berhampur. The event celebrated neurodiversity, inclusion, and acceptance. It brought together neurodiverse children, caregivers, educators, Many school-going pupils, NGO partners, government officials, and community leaders. More than 600 people attended the special screening. CEO Mr. Amit Kumar Garg & the senior officials of TPSODL, Government officials, Tata Steel Foundation, Tata Steel SEZ, Sarva Shiksha Abhiyan and other Government Officials attended the screening, reaffirming the company's strong commitment to build an inclusive society. The film, produced by Anupam Kher Productions with NFDC, tells the inspiring story of a young autistic girl who dreams of joining the Indian Army. It beautifully portrays both the struggles and the unique strengths of individuals with Autism Spectrum Disorder (ASD). This screening was part of Tata Power's flagship program "Pay Attention" – a Tata Power initiative that spreads awareness about autism, encourages early diagnosis, supports caregivers, and promotes inclusive education and workplaces. Mr. Amit Kumar Garg, CEO, TPSODL, Said- "Inclusion is not charity, it is empowerment. Every individual, regardless of ability, carries unique strengths that can inspire society. Cinema like 'Tanvi The Great' helps us spread this message of compassion and responsibility. We are committed to build communities where differences are celebrated, not judged." TPSODL's efforts go beyond power distribution, focusing on building inclusive and compassionate communities. Guided by the belief "Different... but no less," the company inspires people to embrace uniqueness and celebrate every individual's strengths.

ନବରଙ୍ଗପୁର ଜିଲ୍ଲାରେ ବିଜୁଳି ଭିତ୍ତିଭୂମିକୁ ଦୁଗୁଡ଼ କରୁଛି ଚୈତ୍ୟସୂଚକ

ପ୍ରସ୍ତୁତ, ୨୯/୯ (ସୂର୍ଯ୍ୟ ଉଦୟ ନାହିଁ) ।

ନବରଙ୍ଗପୁର ଜିଲ୍ଲାର ବିଭିନ୍ନ ସ୍ଥାନରେ ବିଜୁଳି ଭିତ୍ତିଭୂମିକୁ ଦୁଗୁଡ଼ କରୁଛି ଚୈତ୍ୟସୂଚକ । ନବରଙ୍ଗପୁର ଜିଲ୍ଲାର ବିଭିନ୍ନ ସ୍ଥାନରେ ବିଜୁଳି ଭିତ୍ତିଭୂମିକୁ ଦୁଗୁଡ଼ କରୁଛି ଚୈତ୍ୟସୂଚକ । ନବରଙ୍ଗପୁର ଜିଲ୍ଲାର ବିଭିନ୍ନ ସ୍ଥାନରେ ବିଜୁଳି ଭିତ୍ତିଭୂମିକୁ ଦୁଗୁଡ଼ କରୁଛି ଚୈତ୍ୟସୂଚକ ।

Synopsis: TP Southern Odisha Distribution Limited (TPSODL), a joint venture of Tata Power and the Government of Odisha, has undertaken a series of major initiatives in Nabarangpur district to strengthen electricity infrastructure, improve supply quality, and support inclusive development across southern Odisha. These projects are part of a sustained programme to create a modern, resilient power distribution network that can meet the needs of households, farmers, institutions, and industries alike.

Nabarangpur, known for its rich cultural traditions and agricultural potential, is one of the fastest growing districts in southern Odisha. With its emerging towns, expanding farmlands, and aspirations for industrial growth, the demand for reliable electricity has been steadily increasing. TPSODL has responded with a comprehensive set of initiatives to modernize substations, expand lines, and upgrade feeders, ensuring that electricity reaches every consumer with efficiency and consistency. Over the past year, several important works have been carried out across Nabarangpur. The long-standing issue of capacity constraints has been addressed through transformer augmentation. At Tandaguda, an additional transformer was installed to strengthen supply and build redundancy. Substations at Khatigada and Kosagumuda saw upgrades from 1.6 MVA to 3.15 MVA, while Jharigaon was enhanced from 3.15 MVA to 5 MVA. The main substation at Nabarangpur itself was upgraded from 5 MVA to 10 MVA, effectively doubling its capacity to serve growing residential, agricultural, and commercial demand.

Synopsis: Synopsis: TP Southern Odisha Distribution Limited (TPSODL), a joint venture of Tata Power and the Government of Odisha, has undertaken a series of major initiatives in Nabarangpur district to strengthen electricity infrastructure, improve supply quality, and support inclusive development across southern Odisha. These projects are part of a sustained programme to create a modern, resilient power distribution network that can meet the needs of households, farmers, institutions, and industries alike.

Nabarangpur, known for its rich cultural traditions and agricultural potential, is one of the fastest growing districts in southern Odisha. With its emerging towns, expanding farmlands, and aspirations for industrial growth, the demand for reliable electricity has been steadily increasing. TPSODL has responded with a comprehensive set of initiatives to modernize substations, expand lines, and upgrade feeders, ensuring that electricity reaches every consumer with efficiency and consistency. Over the past year, several important works have been carried out across Nabarangpur. The long-standing issue of capacity constraints has been addressed through transformer augmentation. At Tandaguda, an additional transformer was installed to strengthen supply and build redundancy. Substations at Khatigada and Kosagumuda saw upgrades from 1.6 MVA to 3.15 MVA, while Jharigaon was enhanced from 3.15 MVA to 5 MVA. The main substation at Nabarangpur itself was upgraded from 5 MVA to 10 MVA, effectively doubling its capacity to serve growing residential, agricultural, and commercial demand.

TPSODL Champions Power Transformation with Innovation in Southern Odisha

SCADA implementation, GIS mapping & drone surveillance ensure reliability

Berhampur (HSMN) is the largest township in southern Odisha, where vital public services are provided. TPSODL has been instrumental in ensuring the town's electricity distribution.

A joint venture of Tata Power and the Government of Odisha, the company is setting new benchmarks by bringing in cutting-edge consumer-centric solutions. From data-based decision-making to SCADA-driven monitoring, TPSODL has introduced advanced (innovative) technology and efficient (cutting-edge) operations. These

include state-of-the-art SCADA systems, GIS mapping, and drone surveillance. These technologies ensure the stability of the network without any downtime — through the PSC and DSC — provide real-time stability of loads and ensure better customer service. The company has also equipped its network through GIS, giving them a clearer picture of infrastructure and ensuring better service delivery.

Customer-centric services have been implemented through a mobile app, the use of smart meters, and digitalised complaint tracking have introduced greater transparency and accountability.

Customers can now reach TPSODL via app — which brings out the best of customer-centric services. (Digital apps, or even a simple, manual call to the NPY (No Power) helpline.)

Supply service centres. An AI chatbot, further simplifies transactions, ensuring quick service and offering the best for physical visits. Dedicated centres are no longer confined to offices in southern Odisha. TPSODL has created strategic touch points so that every household, whether a remote area or a city hub, has access to its services. The company has been actively focused on building quality infrastructure.

Now 11kV and 33kV lines are being laid to enhance the power network, supporting both residential and commercial

industrial expansion. Real-time monitoring and predictive maintenance, ensuring zero downtime at every level. Beyond smart and sustainable, TPSODL is always ready to support its customers in rural areas, while ensuring health (through the use of drones) and safety (through the use of drones) in remote areas. The company is always committed to providing a green and sustainable source of electricity.

With a strong focus on customer-centric solutions and a commitment to innovation, TPSODL is

ensuring a bright future for the township. With a focus on innovation, TPSODL is ensuring a bright future for the township. With a focus on innovation, TPSODL is ensuring a bright future for the township. With a focus on innovation, TPSODL is ensuring a bright future for the township.

TPSODL Champions Power Transformation with Innovation in Southern Odisha

B e r h a m p u r , September (B. News): In the tough terrains of southern Odisha, where tribal belts meet growing townships, TP Southern Odisha Distribution Limited (TPSODL) is rewriting the story of electricity distribution. A joint venture of Tata Power and the Government of Odisha, the company is setting new benchmarks by blending technology with consumer-first initiatives. From drone-based line inspections to SCADA-driven monitoring, TPSODL has embraced advanced systems that bring accuracy and efficiency into daily operations. Drone technology enables engineers to monitor hard-to-reach stretches of the network without delays, while SCADA systems in all six circles — through the PSCC and APSCC — provide real-time visibility of faults and enable faster restoration of power. The company has also mapped its network through GIS, giving teams a clearer picture of infrastructure spread across eight s o u t h e r n

districts. Commercial services have undergone a quiet transformation as well. On-the-spot bill revision, AI-driven meter reading, and digitalized complaint tracking have introduced greater transparency and accountability.

Consumers can now reach TPSODL with ease — whether through multilingual call centres, customer relation centres, digital apps, or even a simple missed call to the NPS (No Power Supply) service number. An AI chatbot further simplifies interactions, answering queries instantly and reducing the need for physical visits.

Electricity services are no longer confined to offices in southern Odisha. TPSODL has created multiple touch points so that every household, whether in a bustling town or a tribal hamlet, feels connected to its services. The company has been equally

focused on building quality infrastructure. New 33kV and 11kV lines are strengthening the backbone of the power network, supporting both household electrification and industrial expansion. Real-time dashboards track performance across divisions, instilling a strong sense of accountability at every level.

Beyond wires and transformers, TPSODL is shaping social impact. Its Adhikar initiative has introduced digital literacy in tribal belts, while Mobile Health Dispensaries (MHDs) bring essential healthcare to remote villages. CSR projects on energy conservation awareness in schools and colleges are nurturing a generation conscious of sustainability. Women empowerment programmes and livelihood initiatives are also creating fresh opportunities at the grassroots. Reflecting on this journey, Mr. Amit Kumar Garg, CEO of TPSODL, said: "At TPSODL, we see electricity as more than a utility — it is an enabler of progress. By combining technology like drones, SCADA, and GIS with consumer-first services such as AI chatbots and NPS support, we are making power reliable, transparent, and inclusive. Our mission is simple: to light up every home, empower industries, and ensure that the benefits of growth reach the most remote tribal communities of southern Odisha."

Synopsis: In the tough terrains of southern Odisha, where tribal belts meet growing townships, TP Southern Odisha Distribution Limited (TPSODL) is rewriting the story of electricity distribution. A joint venture of Tata Power and the Government of Odisha, the company is setting new benchmarks by blending technology with consumer-first initiatives. From drone-based line inspections to SCADA-driven monitoring, TPSODL has embraced advanced systems that bring accuracy and efficiency into daily operations.

Drone technology enables engineers to monitor hard-to-reach stretches of the network without delays, while SCADA systems in all six circles — through the PSCC and APSCC — provide real-time visibility of faults and enable faster restoration of power. The company has also mapped its network through GIS, giving teams a clearer picture of infrastructure spread across eight southern districts.

Commercial services have undergone a quiet transformation as well. On-the-spot bill revision, AI-driven meter reading, and digitalized complaint tracking have introduced greater transparency and accountability.

Consumers can now reach TPSODL with ease — whether through multilingual call centres, customer relation centres, digital apps, or even a simple missed call to the NPS (No Power Supply) service number. An AI chatbot further simplifies interactions, answering queries instantly and reducing the need for physical visits.

ଦକ୍ଷିଣ ଓଡ଼ିଶାରେ ବିଦ୍ୟୁତ ସେବାରେ ପରିବର୍ତ୍ତନ ଆଣିଛି ଟିପିଏସ୍‌ଓଡିଏଲ୍

ଭୁବନେଶ୍ୱର, ୨୯।୯ (ମହାଭାରତ): ଦକ୍ଷିଣ ଓଡ଼ିଶାର ଦୁର୍ଗମ ଅଞ୍ଚଳରେ, ଯେଉଁଠାରେ ଜନଜାତିବହୁଳ ଅଞ୍ଚଳ ବିକାଶୋନ୍ମୁଖୀ ସହରାଞ୍ଚଳ ସହ ମିଶୁଛି ସେଠାରେ ବିଦ୍ୟୁତ ବିତରଣ କ୍ଷେତ୍ରରେ ଏକ ନୂଆ ମାଲକଖୁଣ୍ଟ ସ୍ଥାପନ କରିଛି ଟିପିଏସ୍‌ଓଡିଏଲ୍ ଓଡ଼ିଶା ଡିଜିଟାଲ୍ ଟ୍ରାନ୍ସମିସନ୍ ଲିମିଟେଡ୍ (ଟିପିଏସ୍‌ଓଡିଏଲ୍) । ଓଡ଼ିଶା ସରକାର ଓ ଟାଟା ପାୱାର ଏହି ଯୌଥ ଉଦ୍ୟୋଗ ତଥା ଟିପିଏସ୍‌ଓଡିଏଲ୍ ବିଦ୍ୟୁତ ବିତରଣ କ୍ଷେତ୍ରରେ ପ୍ରମୁଖ ବିଦ୍ୟାଳୁ ଆପଣାଉଛନ୍ତି ଗ୍ରାହକ କୈନ୍ଦ୍ରିକ ସେବାକୁ ପ୍ରାଧାନ୍ୟ ଦେଉଛି । ବିଦ୍ୟୁତ ସେବା କ୍ଷେତ୍ରରେ ହେଲେ,

ଟେକ୍ନୋଲୋଜିକୁ ବ୍ୟବହାର କରିବା ସହିତ ଛାଡ଼ା ଟେକ୍ନୋଲୋଜିକୁ ଆପଣାଇ ଦୈନନ୍ଦିନ ପରିଚାଳନାରେ ସଠିକତା ଓ ଦକ୍ଷତାକୁ ସୁନିଶ୍ଚିତ କରିଛି ଟିପିଏସ୍‌ଓଡିଏଲ୍ । ହେଲେ, ଟେକ୍ନୋଲୋଜି ବ୍ୟବହାର ଫଳରେ ଦୁର୍ଗମ ଓ ଅପହଞ୍ଚ ଅଞ୍ଚଳରେ ବିନା କୌଣସି ବାଧାରେ ବିଦ୍ୟୁତ ବିତରଣ ବ୍ୟବସ୍ଥା ନାରିକ୍ଷଣ କରିବା ହୋଇପାରିଛି ଆହୁରି ସହଜ । ସେହିପରି ଟିପିଏସ୍‌ଓଡିଏଲର ଛଅଟି ଯାକ ସର୍କଲରେ ଛାଡ଼ା ଟେକ୍ନୋଲୋଜିକୁ ଆପଣାଇବା ଫଳରେ ପିଏସ୍‌ସିଏସି ଓ ଏପିଏସ୍‌ସିଏସି ମାଧ୍ୟମରେ ବିଦ୍ୟୁତ ସମ୍ପ୍ରଦାନ ଯେକୌଣସି ତ୍ରୁଟିକୁ ସଠିକ୍

ସମୟରେ ଚିହ୍ନଟ କରାଯିବା ସାଙ୍ଗକୁ ତାର ସମାଧାନ ମଧ୍ୟ କରାଯାଇପାରୁଛି । ଏଥିସହିତ ଜମୀନା ତରଫରୁ ୮ଟି ଜିଲ୍ଲାରେ ଜିଆରଏସ୍ ସିଷ୍ଟମ ଦ୍ୱାରା ଏହାର ବିଦ୍ୟୁତ ବିତରଣ ନେଟୱାର୍କକୁ ମ୍ୟାପିଂ କରାଯାଇଛି । ଯାହା ବିଦ୍ୟୁତ ଭିତ୍ତିଭୂମିର ଏକ ସ୍ୱଚ୍ଛ ଚିତ୍ର ଦର୍ଶାଇଥାଏ । ଚାଣିଜ୍ୟିକ ସେବାରେ ମଧ୍ୟ ବ୍ୟାପକ ପରିବର୍ତ୍ତନ ଆସିପାରିଛି । ତୁରନ୍ତ ବିଦ୍ୟୁତ ବିଳମ୍ବ ବ୍ୟାପନ, ଏଆଇ ଦ୍ୱାରା ମିତର ରିଡିଂ ଏବଂ ଡିଜିଟାଲ ମାଧ୍ୟମରେ ଆଭିଯୋଗ ପଞ୍ଜିକରଣ ଓ ଟ୍ରାକିଂ ଭଳି ବ୍ୟବସ୍ଥା ଜମୀନା ତରଫରୁ କରାଯାଇଛି ଯାହା ବିଦ୍ୟୁତ ସେବା କ୍ଷେତ୍ରରେ ଅଧିକ ସ୍ୱଚ୍ଛତା ଓ ଦାୟିତ୍ୱବୋଧତା ଆଣିଛି ।

Synopsis: In the tough terrains of southern Odisha, where tribal belts meet growing townships, TP Southern Odisha Distribution Limited (TPSODL) is rewriting the story of electricity distribution. A joint venture of Tata Power and the Government of Odisha, the company is setting new benchmarks by blending technology with consumer-first initiatives. From drone-based line inspections to SCADA-driven monitoring, TPSODL has embraced advanced systems that bring accuracy and efficiency into daily operations.

Drone technology enables engineers to monitor hard-to-reach stretches of the network without delays, while SCADA systems in all six circles — through the PSCC and APSCC — provide real-time visibility of faults and enable faster restoration of power. The company has also mapped its network through GIS, giving teams a clearer picture of infrastructure spread across eight southern districts. Commercial services have undergone a quiet transformation as well. On-the-spot bill revision, AI-driven meter reading, and digitalized complaint tracking have introduced greater transparency and accountability.

Consumers can now reach TPSODL with ease — whether through multilingual call centres, customer relation centres, digital apps, or even a simple missed call to the NPS (No Power Supply) service number. An AI chatbot further simplifies interactions, answering queries instantly and reducing the need for physical visits.
